

**Webinar**

***Phishing Attacks, learn how to deal with them***

**19 November 2020, 16:00 CET**

***A walk through the CYBERWISER.eu Platform***

**Antonio Álvarez, ATOS**

Funded by the European Commission  
Horizon 2020 – Grant # 786668

CYBERWISER.eu

# Introduction to the CYBERWISER.eu Platform

 **CYBERWISER.eu is a cyber range platform envisioned to**

 **Deliver cybersecurity professional training to a wide community**

-  From students to experienced professionals
-  Public and private sectors
-  Applicable to different verticals

 **Provide with training tools and materials to cover both theory and practice**

-  Learn how to attack to know how to defend
-  Put the user in the shoes of the attacker (red team) and the defender (blue team)

 **Promote and develop a solid cybersecurity culture across Europe and worldwide**

CYBERWISER.eu

# Introduction to the CYBERWISER.eu Platform

- Integrated LMS
- GUI for scenario design & configuration
- Attack and defense tools
- Real-time monitoring of exercise status
- Assistance in performance evaluation
- Risk assessment

CYBERWISER.eu

# Introduction to the CYBERWISER.eu Platform

CYBERWISER.eu	
<b>PROVIDES</b>	Training platform that includes a cyber range
	High-Fidelity simulation of network infrastructures to be used as scenarios
	Exercises, modules, courses and customized learning paths
	Real-time monitoring of exercise progress
	Real-time user performance evaluation
	Management of individual learning path and curricula
<b>ALLOWS</b>	Theoretical training
	Hands-on training
	Learn from playing the role of both attacker and defender
